### **Campus Engagement: Organized Meeting**

On Friday, April 4th, I attended a meeting about what the try outs for dance team will consist of, what we need to do to prepare, and how the new year will be run. This meeting was held by our coach Megan Wolcott. She told us all of the following to make sure that we are prepared for a new, successful year.

The beginning of the meeting she discussed to all of the new people trying out what the year consists of. She lets the incoming freshman view our previous years calendar to make sure that they know the commitment of what being on the dance team is. She then also lets them know what we have to do in order to be on the dance team. We have to do thirty service hours, we go to nationals, we go to camp in Wisconsin, and many athletic sporting events. Our main job of being on the dance team is pumping up the crowd, athletic sporting events. Then second comes our competing side of dance team.

There was about thirty girls that attended the meeting. Megan also discussed with them the costs of being on the dance team. It costs about two thousand dollars to be apart of the team while also having to make the team first. This meeting made me excited for try outs and hopefully for the next year!

This relates back to class because our coach Megan used her speaking skills to speak in front of many girls wanting to try out. She didn't have any gestures or fillers she

was very relaxed when talking to all the other girls. It exposed me to good speaking skills which related back to our class very well. Dance Team try outs for the next year is April 11, 12, and 13. We find out the news on April 13th in we made the team or not. It will be very fun but also very challenging at the same time.
